

School Holiday Extension Workshops

For
inquisitive
young
minds

Workshop Information

Enrolments are now open for the October school holiday workshops. This is a unique program to inspire children with aspirations to the medical fields and those who simply enjoy exploring a new area of interest with like-minded peers. Enrolments can be made for a single half day session or make it a full day and book both morning and afternoon workshops. Maximum fun and exploration but not for the fainthearted!

Ages: 8 – 12

Friday 9 October, 2020

YOUNG DOCTORS: Circulatory System - Heart

Circulatory system theory, heart structure and function, measuring heart rate, heart dissection and more!

9:30 AM – 12:00 PM

YOUNG DOCTORS: Nervous System - Eye

Nervous system theory, eye structure and function, Blue Field Entoptic Phenomenon, eye dissection and more!

12:45 – 3:15 PM

Workshop Information

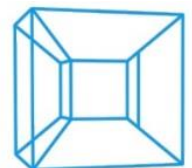

The workshops are held at Christ Church Grammar School in Claremont. Cost for one workshop is \$55 or \$110 for the full day. Workshops are run by fully qualified, registered teachers with over 10 years experience in delivering specialised gifted and talented programs and assisted by experts in their field.
