

Building Good Men Leadership Breakfast

Friday 1 August 2025

Christ Church
Grammar School
PERTH, WESTERN AUSTRALIA

Gary Johnson

Gary began his electrical apprenticeship at 17 and quickly progressed, mentoring others by his second year. Seeking greater opportunity, he relocated to the remote town of Fitzroy Crossing, where he founded Alcolizer Technology in 1990 - starting with a wall-mounted breathalyzer built in a garage. Over time, Alcolizer grew into a global leader in alcohol and drug testing, widely recognised for its innovation. In 1998, he co-founded the Kimberley Regional Service Provider (KRSP) in partnership with the Marra Worra Worra Aboriginal Corporation. KRSP went on to deliver essential services, infrastructure maintenance, and community projects, significantly improving the lives of Indigenous people across Western Australia's Kimberley region.

Michael Veletta

Michael Veletta, one of Western Australia's finest opening batsmen, broke tradition early by switching from soccer to cricket, quickly excelling as a batsman, fielder, and wicketkeeper. Debuting for WA at 19 alongside legends like Lillee and Marsh, he went on to represent Australia in both Test and One Day formats, with highlights including the 1986 tour of India. After retiring at 31, he moved into coaching before launching a successful real estate career, eventually becoming a senior leader at CBRE. Elected to the WACA Board in 2016 and inducted into the WA Cricket Gallery of Greats in 2025, Veletta's journey reflects a life of excellence in sport, business, and community.

Matt Keogh

Matt is a politician, lawyer and committed to making change to make Australia a better place to live. Matt is the Australian Government Minister for Veterans' Affairs and Defence Personnel since 2022 and a Federal Member of Parliament since 2016. Matt grew up in the hills and worked in politics and IT while studying law and politics at Notre Dame. Before his election, Matt worked as lawyer in various roles while volunteering as a board member of a domestic violence refuge, Law Society of WA President, Director of the Law Council of Australia and foundation chair of Law Access WA.

Paul Begley

Paul has been in wealth management since 1996, providing tailored advice to high-net-worth individuals, families, businesses, and not-for-profits. Drawing on his expertise in tax and investment, along with personal experience as a business owner, he helps clients manage risk, diversify portfolios, plan succession, and invest business cash flow and sale proceeds. Joining Koda in 2022 through the Koda/Redwood merger, Paul is proud to lead the Perth team in continuing his mission to create lasting legacies for clients.

Simon Raybould

Retired finance executive and current Diocesan Trustee. Simon brings a distinguished career across banking, capital markets, foreign exchange, audit, and investment management -underpinned by a deep understanding of global regulatory frameworks and cross-border financial operations. Formerly Head of CME Australia and a board member of CME Asia. He has served as a Trustee of the Perth Diocese since 2023.

Ryan Lasscock

Ryan Lasscock is the Head of AFL and First XVIII Coach at Christ Church, bringing a wealth of experience and a dynamic approach to the program. With a strong coaching background at both state and club levels, Ryan is well-regarded for his leadership, player development, and strategic insight. His coaching career includes a successful seven-year tenure as Colts Head Coach at West Perth (2017 to 2023), Assistant Coach with the WAFC State Academy (2019 to 2021), and Senior Assistant Coach at East Perth in 2024. In 2022, he was a member of the Western Australian Football Commission and was recognised with the prestigious JJ Leonard Medal as WAFL Coach of the Year. He was also named WAFL Colts Coach of the Year in both 2020 and 2022.

Geoffrey Alagoda

Geoffrey is the Director of Information and Learning Technologies at Christ Church Grammar School. He oversees the planning and administration of ICT services, ensuring staff and students have the technology they need to excel in their fields.
